

MARIO ANDRÉS ROJAS VARELA

San Carlos, Costa Rica
marioandresrojasvarela@gmail.com
www.linkedin.com/in/mario-andres-rojas-varela

Computer Engineering student interested in computer science, AI, applied research, and IoT systems that combine software with sensors, actuators, and microcontrollers. Actively involved in institutional and collaborative projects that demonstrate initiative, teamwork, and leadership readiness. Highly motivated, adaptable, and academically disciplined, with a strong ability to work in multicultural and international contexts.

EDUCATION

Bachelor of Computer Engineering (in progress) 2024 - Present
Instituto Tecnológico de Costa Rica (TEC)

Technical High School Diploma in Configuration and Support of Computer Networks and Operating Systems 2021 - 2023
Colegio Técnico Profecional Regional San Carlos
(Technical Vocational High School - San Carlos, Costa Rica)

EXPERIENCE

Academic and Technical Experience:

- Professional internship in IT and networking - Encora (2 months)
- Short internship in IT systems - SINAC (1 week)

Projects:

- Institutional Project (RFID Time Registration System) - TEC (2025-2026):

Co-designed and implemented an RFID-based time registration system for an institutional athletic event, developed in collaboration with faculty members. This was presented at the COMPDES 2025 (Guatemala).

- Institutional Project (web site for Ibero-American congress COMPDES 2027) - TEC (2026):

Contributed to the design and development of the COMPDES 2027 conference website using Astro, implementing a bilingual, responsive, and accessible interface. Collaborated on reusable UI components, visual identity, and interactive animations.

CERTIFICATIONS

- Participant and Presenter at COMPDES Conference (Guatemala, 2025)
- English Access Microscholarship Program - U.S. Department of State
- Basic sensors/actuators handling - TEC & MYONGJI
- CyberOps - Cisco
- Python Essentials - Cisco
- Linux Essentials - Cisco
- Leadership Training - Maxwell Leadership Foundation
- Cybersecurity Introduction - TEC & MYONGJI College (South Korea)
- Medical Image Processing with Machine Learning - TEC & MYONGJI College (South Korea)

PROFESIONAL AND PERSONAL SKILLS

Soft Skills:

- Teamwork in multidisciplinary areas
- Clear written and oral communication
- Leadership and initiative
- Logical thinking and problem-solving

Technical Skills:

- Programming skills
- AI and Machine Learning fundamentals
- Cybersecurity principles
- Networking fundamentals
- Operating Systems knowledge

Languages:

- Spanish: Native
- English: Advanced (C1)
